

162 mph in an MGB?

What's the fastest you've ever gone in an MGB? 100? 120? How about 162.1 mph?

That's the top speed the folks at Snake River Classics hit in the company's modernized, GM turbo-four-powered MGB during the 2022 Sun Valley Tour de Force, a three-day automotive celebration that took place in central Idaho this summer.

The headline event for the Sun Valley Tour de Force is a no-speed-limit run at Sawtooth National Recreation Area's Phantom Hill. The current record for this event? 253.01 mph from a Bugatti Chiron. —Colin Wood

TRIUMPH TAKEOVER

More than 200 Triumph owners descended upon the northwest corner of Illinois for this September's Vintage Triumph Register annual convention. The Illinois Sports Owners Association held the event and didn't miss a beat, organizing a car show, an autocross competition, tech talks and, of course, plenty of socializing. Classic Motorsports Publisher Tim Suddard served as the convention's honored guest. As always, there are more photos on our site.

NEW HOME FOR ARIZONA CONCOURS

There's a new home for the Arizona Concours d'Elegance: the newly renovated Scottsdale Civic Center, with the upcoming event taking place January 22, 2023. Details and tickets: arizonaconcours.com.
